

GLOBALE

Globale Sottile Cinder

METZ®

METZ GLOBALE is a series of three different concrete styles in four colours, enabling designers to select the precise concrete look required.

SELECT YOUR PREFERRED CONCRETE LOOK

GLOBALE SOTTILE STYLE is the most subtle look of the three styles, reminiscent of highly worked smooth plain concrete. Tiny effects of off-form concrete can be seen, however when viewed at a distance the monolithic effect takes over.

GLOBALE MEDIO STYLE is the middle style where fines of stones, clay and gravel are introduced to create a look with a little more variation. The speckles generally tone in with the background shades.

GLOBALE FORTE STYLE is the strongest look where clusters of contrasting aggregates have been introduced in a random scattering throughout the surface.

Globale Plain

Slip Resistance // Low / P2

300 x 600	All Colours
600 x 600	All Colours
600 x 1200	All Colours
1200 x 1200	All Colours
750 x 750	All Colours
750 x 1500	All Colours

Plain provides a P2 finish that is suitable for interior floor and wall applications.

Globale NanoGRIP®

Slip Resistance // Medium / R10 / P4 / B

300 x 600	Forte Iron
600 x 600	Sottile Cinder, Medio Cinder

NanoGRIP® provides a P4 slip resistant surface with sound wear characteristics suitable for all but the heaviest commercial traffic. All colours and formats in Metz Globale can be produced in the NanoGRIP® surface, however minimum quantities may apply for other than the items shown.

Globale MicroGRIP®

Slip Resistance // High / R12 / P5 / C

300 x 600	Medio Nickel
-----------	--------------

MicroGRIP® provides high slip resistant performance for demanding commercial traffic areas, external paths and ramps. The flat mild textured surface of the MicroGRIP® finish provides the ideal balance between long term sustainable slip resistance and ease of cleaning. All colours and formats in Metz Globale can be produced in the MicroGRIP® surface, however minimum quantities may apply for other than the items shown.

Finish Type	Oil Ramp	Barefoot Ramp	Pendulum	AWT [500 cycles] Typical
Plain	R9	-	P2	Not Tested
NanoGRIP®	R10	B	P4	30 - 35+ [good]
MicroGRIP®	R12	C	P5	40 - 45+ [excellent]

Note: Items with a "-" are not expected to achieve any substantial level of slip resistance under that test method. Items marked as "Not Tested" have not been measured by that particular test method.
